**Number TR-271**

The attached joint notice and request for comment regarding Agency Information Collection Activities: Submission for OMB Review was published in the Federal Register on December 12, 2001.

- WAPA Power Line (in South Natomas);
- Northgate Boulevard (in South Natomas);
- Market Boulevard (in North Natomas); and
- Direct access to Arco Arena.

#### IV. Probable Effects

The purpose of the EIS/EIR is to fully disclose the environmental consequences of building and operating a major capital investment in the DNA Corridor in advance of any decisions to commit substantial financial or other resources towards its implementation. The EIS/EIR will explore the extent to which study alternatives and alignment options result in environmental impacts and will discuss actions to reduce or eliminate such impacts.

Environmental issues to be examined in the EIS/EIR include: potential changes to the physical environment (natural resources, air quality, noise, water quality, geology, visual); changes in the social environment (land use, development, business and neighborhood disruptions); changes in traffic and pedestrian circulation; changes in transit service and patronage; associated changes in traffic congestion; and impacts on parklands and historic sites. Impacts will be identified both for the construction period and for the long-term operation of the alternatives. The proposed evaluation criteria include transportation, social, economic, and financial measures, as required by current federal (NEPA) and state (CEQA) environmental laws and the implementing regulations of the Council on Environmental Quality and of FTA.

To ensure that the full range of issues related to this proposed action will be addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS/EIR should be directed to the RT Program Manager as noted in the **DATES** section above.

#### V. FTA Procedures

To streamline the NEPA process and to avoid duplication of effort, the agencies involved in the scoping process will consider the results of any previous planning studies or financial feasibility studies prepared in support of a decision by the Sacramento Area Council of Governments to include a particular alternative in the regional transportation plan for metropolitan Sacramento. Prior transportation planning studies may be pertinent to establishing the purpose and need for the proposed action and the range of alternatives to be evaluated in detail in

the EIS. The Draft EIS/EIR will be prepared simultaneously with conceptual engineering for the alternatives, including station and alignment options. The Draft EIS/EIR process will address the potential use of federal funds for the proposed action, including airport related funding opportunities, as well as assesses the social, economic, and environmental impacts of the station and alignment alternatives. Station designs and alignment alternatives will be refined to minimize and mitigate any adverse impacts.

After publication, the Draft EIS/EIR will be available for public and agency review and comment, and a public hearing will be held. Based on the Draft EIS/EIR and comments received, RT will select a locally preferred alternative for further assessment in the Final EIS/EIR and will apply for FTA approval to initiate Preliminary Engineering of the preferred alternative.

Issued on: December 5, 2001.

## DEPARTMENT OF THE TREASURY

### Office of Thrift Supervision

#### Agency Information Collection Activities: Submission for OMB Review; Comment Request

**AGENCIES:** Office of the Comptroller of the Currency (OCC), Treasury; Federal Deposit Insurance Corporation (FDIC); and Office of Thrift Supervision (OTS), Treasury.

**ACTION:** Joint notice and request for comment.

**SUMMARY:** The OCC, FDIC, and OTS (Agencies), as part of their continuing effort to reduce paperwork and respondent burden, invite the general public and other Federal agencies to comment on proposed revisions to a continuing information collection, as

required by the Paperwork Reduction Act of 1995. The Agencies are soliciting comment concerning their information collection titled, "Interagency Charter and Federal Deposit Insurance Application." The Agencies also give notice that they have sent the information collection to OMB for review and approval. The Agencies may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number.

**DATES:** You should submit written comments to the Agencies and the OMB Desk Officer by January 11, 2002.

**ADDRESSES:** Interested parties are invited to submit comments to any or all of the Agencies. All comments, which should refer to the OMB control number, will be shared among the Agencies:

*Abstract:* This submission covers a revision to the charter applications of the OCC and OTS and the deposit insurance application of the FDIC. The proposed form will make the application form uniform among the Agencies and is titled, "Interagency Charter and Federal Deposit Insurance Application." The Agencies need the information to ensure that the covered proposed activities are permissible under law and regulation and are consistent with safe and sound banking practices. For example, the Agencies are required to consider financial and managerial resources, future earnings prospects, and community reinvestment. Further, the Agencies use the information to evaluate specific individuals' qualifications. Both financial institutions and individuals organizing a financial institution must provide this information.

*Current Actions:* A task force of the Federal Financial Institutions Examination Council (FFIEC) has adapted, reformatted, and retitled the collection: Interagency Charter and Federal Deposit Insurance Application, pursuant to the Riegle Community Development and Regulatory Improvement Act of 1994 (CDRI). Comments were solicited in the **Federal Register** on September 18, 2001 (66 FR 48168). The agencies received one comment on the form. The comment is summarized in each agency's OMB submission.

*Comments:* All comments will become a matter of public record. Written comments are invited on:

a. Whether the information collection is necessary for the proper performance of the agencies' functions, including whether the information has practical utility;

b. The accuracy of the agencies' estimates of the burden of the information collection, including the validity of the methodology and assumptions used;

c. Ways to enhance the quality, utility, and clarity of the information to be collected;

d. Ways to minimize the burden of information collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

e. Estimates of capital or start up costs and costs of operation, maintenance, and purchase of services to provide information.
