RISK MANAGEMENT

(1) Within ninety (90) days, the Board shall develop, implement, and thereafter ensure Bank adherence to a written risk management program to include, at a minimum, the following:

- (a) identification of existing credit, interest rate, liquidity, transaction,
 compliance, strategic, reputation, price, and foreign currency translation
 risks, and a written analysis of those risks;
- (b) action plans and time frames to reduce risks where exposure is high,
 particularly with regard to credit risk, which impacts directly on liquidity,
 compliance, strategic, and reputation risks;
- (c) policies, procedures or standards which limit the degree of risk the Board is willing to incur, consistent with the Bank's strategic plan and financial condition. This includes analyzing and limiting the risks associated with any new lines of business which the Board undertakes. The procedures shall ensure that strategic direction and risk tolerances are effectively communicated and followed throughout the Bank and shall describe the actions to be taken where noncompliance with risk policies is identified;

- (d) systems to measure and control risks within the Bank. Measurement systems shall provide timely and accurate risk reports by customer, by department or division, and bank-wide as appropriate; and
- (e) procedures to ensure that Bank employees have the necessary skills to supervise effectively the current and the new business risks within the Bank, and procedures to describe the actions to be taken to address deficiencies in staff levels and skills.

The risk management program shall be consistent with the "Bank Supervision Process" booklet of the <u>Comptroller's Handbook</u>.

(2) The Board shall ensure that the Bank has processes, personnel, and control systems to ensure implementation of and adherence to the program developed pursuant to this Article.

ARTICLE IV

RECOGNITION OF OTHER-THAN-TEMPORARY IMPAIRMENT

Within ninety (90) days, the Bank shall develop and implement policies and procedures to ensure the timely identification and ongoing monitoring of investment securities (debt and equity) with other-than-temporary impairment.

(2) The Bank's policy shall call for a quarterly written review of those securities with a fair value below amortized cost in order to evaluate whether a decline in the fair value is other-than-temporary. Such a review shall encompass, as applicable, the factors specified in Statement of Financial Accounting Standards No. 115, "Accounting for Certain Investments in Debt and Equity Securities" (SFAS 115), and other accounting guidance. The factors include:

(a) whether fair value is significantly below amortized cost;

- (b) the period of time the decline has existed;
- (c) the Bank's intent and the ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value;
- (d) downgrades in securities from investment grade to below investment grade or other sudden and significant downgrades;
- (e) the financial condition of the issuer;
- (f) whether the decline is attributable to adverse conditions specifically related to the issuer or to specific conditions in an industry or in a geographic area;
- (g) if dividends have been reduced or eliminated;
- (h) any failure to make scheduled interest or principal payments;
- (i) changes in tax laws, regulations, or other governmental policies significantly affecting the issuer; and
- (j) forecasts of economic, market or industry trends.

(3) For those securities that the Bank does not plan to hold for a sufficient period of time to recover the recorded value, or when the issuer of the security defaults, impairment in the fair value of the security will typically be considered other- than-temporary.

(4) For other securities adversely affected by the factors listed in paragraph (2), the Bank must provide objective and verifiable evidence documenting why it should not use an other-than-temporary classification. The objective evidence must indicate the reasons the decline in value below amortized cost is "temporary" and detail how the decline in value can reasonably be expected to be reversed. Objective evidence supporting "temporary" impairment may include the issuer's financial performance (including such factors as earnings trends,

dividend payments, asset quality and specific events), the financial condition and near term prospects of the issuer, and the economic conditions and prospects for the issuer's region and industry.

(5) If the Bank determines that an impairment of a particular investment is otherthan-temporary, the investment must be written down to fair value, through earnings, in the period it occurred. Quoted market prices shall be used to support fair value, when available. If a quoted market price is not available, the estimate of fair value shall be based on the best information available in the circumstances. Once other-than-temporary impairment has been recognized, the fair value is the new cost basis of the asset. The new cost basis is not adjusted by subsequent recoveries of value at a later date.

(6) The Board shall ensure that the Bank has adequate processes, personnel, and control systems to ensure implementation of and adherence to the policy developed pursuant to this Article.
