

# OCC 2000-33

Subject: Statement on Appraisal Standards for Federally Related Transactions Date: December 26, 2000 To: Chief Executive Officers of All National Banks, Departments and Division Heads, and All Examining Personnel

# **Description: Real Estate Appraisals**

Any attachments to this document are rescinded only as they relate to national banks and federal savings associations.

Appraisal Practice (USPAP) and the agencies' appraisal regulations<sup>1</sup> when conducting appraisals for federally regulated institutions. Most of the identified practices involved appraisals for commercial real estate properties, residential tract development projects, appraiser independence, and appraisal reviews. The attached ASB statement provides additional guidance on these issues.

Some appraisors are not renowing the

Each national bank should review the issues raised in Statement No. 10 and confirm that their appraisal function complies with the OCC's appraisal regulation, 12 CFR 34, Subpart C, the *Interagency Appraisal* 

and Evaluation Guidelines (October 1994)<sup>2</sup> and USPAP. An institution's internal controls must promote compliance with the OCC's appraisal regulation, the guidelines, and industry appraisal standards and ensure that the institution engages competent and ethical appraisers. When utilizing appraisal services, if management determines that a state-licensed or certified appraiser violates USPAP, applicable laws or regulations, or engages in unethical or unprofessional conduct, the institution should make a referral to the appropriate state appraiser regulatory authority.

The ASB periodically issues statements on appraisal standards to clarify, interpret, explain, or elaborate on USPAP. This statement will be incorporated along with other revisions into the USPAP 2001 edition, effective January 1, 2001. The USPAP 2001 edition can be ordered from The Appraisal Foundation at (202) 347-7722 or through its Web site: http://www.appraisalfoundation.org.

If you have any questions about this statement or the OCC's appraisal regulation or *Guidelines,* please contact Thomas Watson, national bank examiner, Credit Risk Division, at (202) 874-5170, or your supervisory office.

# 4524 STATEMENT ON APPRAISAL STANDARDS NO. 10 (SMT-10)

4525

# 4526 SUBJECT: Assignments for Use by a Federally Insured Depository Institution in a Federally Related Transaction 4527

- 4527 4528 **THE ISSUE:**
- 4529

Federal financial institution regulatory agencies (agencies) have experience that indicate some appraisers are not following *Uniform Standards of Professional Appraisal Practice* (USPAP) and, when applicable, the agencies' appraisal regulations<sup>51</sup> and guidelines<sup>52</sup> issued by the Federal Deposit Insurance Corporation (FDIC), Federal Reserve Board (FRB), Office of the Comptroller of the Currency (OCC), and Office of Thrift Supervision (OTS). This is particularly true in appraisals of commercial real estate and residential tract development projects. The agencies' concerns involve three general appraisal areas: USPAP compliance, appraiser independence, and appraisal review.

4536

Federally insured depository institutions recognize that the agencies' appraisal regulations and guidelines include the requirement that appraisals comply with USPAF in a federally related transaction.

4539

4540 Most appraisers recognize that the agencies' appraisal regulations and guidelines supplement the USPAP 4541 requirements when an intended user of the assignment results is a federally insured depository institution for a 4542 federally related transaction. However, some appraisers are uncertain as to:

- 4543
- What does USPAP require when the intended user of assignment results is a federally insured depository institution and the intended use is in a federally regulated transaction, and
   how do the agencies' appraisal regulations and guidelines, which include supplemental standards, affect
  - how do the agencies' appraisal regulations and guidelines, which include supplemental standards, affect the appraiser's scope of work and report content requirements?
- 4547 4548

# 4549 THE STATEMENT:

4550

4551 This Statement provides appraisers, users of appraisal services, and enforcement bodies with clarification, 4552 interpretation, explanation, and elaboration to reaffirm an appraiser's USPAP obligations when performing an 4553 assignment for use by a federally insured depository institution in a federally related transaction.

4554

The requirements in this Statement apply and are binding when the purpose of an assignment includes developing an opinion of market value of real property for intended use by a federally insured depository institution in a federally related transaction.

4558

# 4559 ASB RESPONSE TO THE ISSUE:

4560

Each ASB response on how USPAP applies to a specific concern appears in *italics* followed by references to USPAP
 and guidance material in the Advisory Opinions section.

4563

When the agencies' appraisal regulations and guidelines supplement USPAP requirements, this Statement notes the agencies' appraisal regulations or guidelines as SUPPLEMENTAL STANDARDS. The ASBs' statements about compliance with those requirements are in the context of the appraiser's obligation to comply with the ETHICS RULE or COMPETENCY RULE, as applicable.

4568

4569 Given the scope of this Statement, a Table of Contents is provided on the following page.

	4.	Jurisdictional Exception	4672				
		None of the requirements in the agencies' appraisal regulations and guidelines cause a need to apply the JURISDICTIONAL EXCEPTION RULE.	4673 4674 4675 4676				
		USPAP Reference: JURISDICTIONAL EXCEPTION RULE	4677				
	5.	Supplemental Standards	4678 4679				
		•••	4680				
		The agencies' appraisal regulations and guidelines contain requirements that supplement USPAP. These supplemental standards, which affect an appraiser's obligations in several areas, include:	4681 4682 4683 4684				
		a) Appraiser Independence: The agencies 'appraisal regulations require that an appraiser have no direct or indirect interest, financial or otherwise, in the property or the transaction.	4685 4686				
		b) Departure: The agencies' appraisal regulations require that appraisals include sufficient information and analysis to support the institution's decision to engage in the transaction.	4687 4688				
		c) Analysis: The agencies' guidelines require an appraisal to include the current market value of the property in its actual physical condition and subject to the zoning in effect as of the	4689 4690				
		date of the appraisal (a current date of value).	4691				
		d) Reporting: The agencies' appraisal regulations require that appraisals be written.	4692 4693				
		An appraiser accepting an assignment to be performed under the agencies' appraisal	4694				
		regulations and guidelines is obligated to complete that assignment in a manner that	4695				
		complies with the above and any other supplemental standards included in the agencies'	4696				
		appraisal regulations and guidelines.	4697 4698				
		USPAP Reference: SUPPLEMENTAL STANDARDS RULE	4699 4700				
Specifi	c Concer	ns Involving Noncompliance. Inconsistencies, and Omissions in Assignments Completed for	4701				
		ally Insured Depository Institution in a Federally Related Transaction Are as Follows:	4702 4703				
	Banker	s and examiners report that some appraisers are not following USPAP and the agencies'	4703				
		al regulations and guidelines. Each area of noncompliance, inconsistency, or omission is	4705				
		noted in <b>bold and underlined text</b> , followed by the ASB's response in <i>italicized text</i> as to the					
		er's obligations to ensure compliance with USPAP. Where necessary, reference is also	4706 4707				
		d to the agencies' appraisal regulations and guidelines following the subheading of	4708				
		EMENTAL STANDARDS RULE.	4709				
	DOILD		4710				
В.	APPRA	AISER INDEPENDENCE ISSUES:	4711				
			4712				
	1.	Failing to follow existing appraisal standards to disclose present or prospective relationships with borrowers	4713 4714				
		WILL DUTIDWETS	4715				
		Accepting an assignment involving partles or property in which the appraiser has a current or prospective interest that causes bias violates the ETHICS RULE.	4716				
			4718				
		Failure to disclose in the appraiser's certification any present or prospective relationships with a party involved with the assignment or the subject of the assignment violates	4719 4720				
		Standards Rule 2-3.	4721				
			4722				
		SUPPLEMENTAL STANDARDS RULE: The agencies' appraisal regulations do not permit	4723				
		an appraiser to accept an assignment involving a property or transaction in which the	4724				
		appraiser has a direct or indirect interest, financial or otherwise. If an appraiser who has	4725				
		such an interest violates the agencies' appraisal regulations by accepting such an assignment, he or she violates the SUPPLEMENTAL STANDARDS RULE.	4726 4727

	3.	Omitting an approach to value that typical practice and peers would require	4784			
			4785			
		Omitting an approach to value that would be completed as typical practice by an	4786			
		appraiser's peers in the same or a similar assignment, without adequate and reasonable	4787			
		support for such omission, violates Standards Rule 1-2(f). For example, using other	4788			
		approaches while failing to develop an indication of value by a direct sales comparison approach [SR 1-4(a)] when there are sufficient sales for analysis and the market response	4789			
			4790			
		to the property is most credibly indicated by direct sales analysis violates SR $1-2(f)$ .	4791 4792			
		Follows to state and amplain the person for maluding any of the usual valuation				
		Failure to state and explain the reason for excluding any of the usual valuation $F(x) = \frac{1}{2} \int_{-\infty}^{\infty} \frac{1}{2} \int_{-\infty}^{\infty}$	4793			
		approaches violates the applicable reporting rules [SR 2-2(a) or $(b)(xi)$ ].	4794			
			4795			
		USPAP References: DEPARTURE RULE	4796			
		Standards Rule 1-2(e)	4797			
		Standards Rules 1-4(a)	4798			
		Standards Rule 1-2(f)	4799			
		Standards Rules 2-2(a) and (b)(xi)	4600			
			4601			
	4.	Failing to obtain written concurrence from the client that there is agreement with the use of	4802			
		departure	4803			
			4804			
		Use of the DEPARTURE RULE requires agreement by the client after the appraiser has	4805			
		informed the client that the assignment calls for something less than, or different from, the	4806			
		work required by the specific requirements and that the report will clearly identify and	4807			
		explain the departures. Failure to obtain the concurrence of a thus informed client violates	4808			
		the DEPARTURE RULE.	4809			
			4810			
		As a prudent professional practice, to ensure a common understanding of the scope of	4811			
		work to be completed in an assignment, appraisers could obtain written confirmation of	4812			
		the client's concurrence in the scope of work. This is particularly critical when departure	4813			
		is invoked as it documents the expectation and obligation of both parties and precludes	4814			
		either party being misled as to the scope of work. Such confirmation can be part of an	4815			
		engagement letter or other similar documentation.	4816			
			4817

			4819			
D.	USING	HYPOTHETICAL CONDITIONS:	4620			
			4821			
	1.	Failing to disclose known facts concerning the physical, legal, or economic characteristics of	4822			
		the property being appraised when using a hypothetical condition	4823			
			4824			
		When a property is appraised for market value as of a current date based on a hypothetical	4825			
		condition, an appraiser must ensure:	4626			
			4827			
		<ul> <li>That use of a hypothetical condition [SR 1-2(h)], such as when the subject property involves</li> </ul>	4828			
		proposed improvements as of a current date [SR $1-4(h)$ ], is appropriate and produces	4629			
		credible assignment results.	4630			
		<ul> <li>The appraisal report states the property use as of the date of value and the use reflected in</li> </ul>	4831			
		the appraisal under the hypothetical condition [SR 2-2(a) or $(b)(x)$ ]. For example, the	4832			
		subject property that exists as of the date of value, which is a current date, is raw land but is	4833			
		appraised under a hypothetical condition as an improved property. The property use	4834			
		information included in response to Standards Rule 2-2(a) or (b)(x) must include the property	4835			
		characteristics relevant to both the existing and proposed uses.	4836			
			4837			
		When the client requests a prospective value for the property under an extraordinary	4838			
		assumption [SR $l-2(g)$ ] that the proposed improvement project or rehabilitation is	483 <del>9</del>			
		completed as of a future date, an appraiser must ensure compliance with SR 1-4(h) and	4840

4882	Е.	ANAL	YSIS ISSUES:	
4863				
4884		1.	Failing to adequately add	<u>ress real estate market risk (trends)</u>
4885				
4866			An appraiser must be cert	ain that the gathering of factual information is conducted in a
4887				diligent, given the scope of work as identified according to
4888				ensure that the data that would have a material or significant
4889			effect on the resulting op	vinions or conclusions are identified and, where necessary,
4890			analyzed [SR 1-1(b), <u>Com</u> r	<u>nent</u> ].
4891				
4892			An appraiser must have so	ound reasons in support of the scope-of-work decision and be
4893				ecision to exclude any information or procedure that would
4894				nt, an intended user, or the appraiser's peers in the same or a
4895				to include in the scope of work sufficient market trend research
4896				credible results violates Standards Rules $1-1(a)$ and (b) and
4897			Standards Rule 1-2(f).	

SUPPLEMENTAL STANDARDS RULE: The agencies' appraisal regulations require sufficient information and analysis to support the regulated institution's decision to engage in the transaction. Market area trend analysis information is essential to the intended user's understanding of market risk and how market trend was addressed in developing the value opinion in a market value appraisal.

Analysis of market area trend information is a necessary part of the scope of work to comply with the requirements stated in Standards Rules 1-3(a), 1-4(c)(iv), and 1-4(h)(iii). While departure is permitted from each of these specific requirements, an appraiser must ensure that the scope of work is not so limited that the results of the assignment are no longer credible. An appraiser has the burden of proof to support his or her scope-of-work decision [SR 1-2(f)], including the appropriateness of any departures in view of the agencies' appraisal regulations that require sufficient information and analysis to support the regulated institution's decision to engage in the transaction that prompted the need for the appraisal.

Standards Rule 1-3(a) includes the requirement to identify and analyze, among other things, economic demand and market area trends. The <u>Comment</u> to Standards Rule 1-3(a) states, "An appraiser must avoid making an unsupported assumption or premise about market area trends, ..." If an appraiser violates the agencies' appraisal regulations by failure to conduct sufficient research and analysis of market area trend data or by failure to include the result of such analysis in the appraisal report, the appraiser thus violates the SUPPLEMENTAL STANDARDS RULE.

Standards Rule 1-4(c)(iv) states, "When an income approach is applicable, an appraiser must: ... base projections of future rent and expenses on reasonably clear and appropriate evidence." The <u>Comment</u> to Standards Rule 1-4(c)(iv) states, "An appraiser must, in developing income and expense statements and cash flow projections, weigh historical information and trends, current demand and supply factors affecting such trends, and anticipated events such as competition from developments under construction" If an appraiser violates the agencies' appraisal regulations by failure to complete sufficient research and analysis of market area trends affecting rental and expense levels and relationships in an appraisal of income-producing commercial real estate in which an income approach was completed, or by failure to include the result of such analysis in the appraisal report, the appraiser thus violates the SUPPLEMENTAL STANDARDS RULE.

Standards Rule 1-4(h)(iii) states, "When appraising proposed improvements, an appraiser must examine and have available for future examination: ... reasonably clear and appropriate evidence supporting development costs, anticipated earnings, occupancy projections, and the anticipated competition at the time of completion." Market area trend information and analysis is essential to understand and evaluate the credibility of such information. If, an appraiser violates the agencies' appraisal regulations by failure to conduct sufficient research and analysis of market trends affecting these elements in an appraisal involving a property appraised with proposed improvements, or byfailure to include the result of such analysis in the appraisal report, the appraiser thus violates the SUPPLEMENTAL STANDARDS RULE.

Failure to complete the assignment competently, in accordance with the applicable USPAP requirements and supplemental standards the appraiser agreed to in accepting the assignment, violates the COMPETENCY RULE.

## 

# • Appraiser Independence Issues

The agencies' appraisal regulations, which supplement USPAP, do not permit an appraiser to accept an assignment involving a property or transaction in which the appraiser has a direct or indirect interest, financial or otherwise. If an appraiser who has such an interest violates the agencies' appraisal regulations by accepting such an assignment, he or she violates the SUPPLEMENTAL STANDARDS RULE.

Altering a report in a manner that conceals the original client or intended users in the assignment is misleading and violates the <u>Conduct</u> section of the ETHICS RULE.

# • Departure Issues—Misusing the DEPARTURE RULE

Failure to develop credible opinions and conclusions in an assignment wherein departure is invoked violates the DEPARTURE RULE and Standards Rule 1-2(f).

Failure to state and explain permitted departures from specific requirements in STANDARD 1 violates the applicable reporting rules [SR 2-2(a) or (b)(xi)] as well as the DEPARTURE RULE.

Failure to state and explain the reason for excluding any of the usual valuation approaches violates the applicable reporting rules [SR 2-2(a) or (b)(xi)].

Use of the DEPARTURE RULE requires agreement by the client after the appraiser has informed the client that the assignment calls for something less than, or different from, the work required by the specific requirements and that the report will clearly identify and explain the departures. Failure to obtain the concurrence of a thus informed client violates the DEPARTURE RULE.

# Using Hypothetical Conditions

The agencies' appraisal regulations require sufficient information and analysis to support the regulated institution's decision to engage in the transaction. The agencies' guidelines state that for federally related transactions, an appraisal is to include the current market value of the property in its actual physical condition and subject to the zoning in effect as of the date of the appraisal.

When such an appraisal with a current date of value is based on a hypothetical condition, the information in the appraisal report must include the appraiser's opinion of the current market value of the property in its actual physical condition and subject to the zoning in effect as of the date of the appraisal (current date of value). If, by failing to provide this opinion when possible, an appraiser violates the agencies' appraisal regulation and guidelines, the appraiser violates the SUPPLEMENTAL STANDARDS RULE. If it is not possible to provide an opinion as to the current market value of the property in its actual physical condition and subject to the zoning in effect as of the date of the appraisal, the appraiser must clearly explain the circumstances and reasons why such an opinion could not be developed and reported.

5212

Failing to include in the scope of work sufficient market trend research and analyses to develop credible results violates Standards Rules 1-1(a) and (b) and Standards Rule 1-2(f).

If an appraiser violates the agencies' appraisal regulations by failure to conduct sufficient research and analysis of market area trend data or failure to include the result of such analysis in the appraisal report, an appraiser thus violates the SUPPLEMENTAL STANDARDS RULE.

- If an appraiser violates the agencies' appraisal regulations by failure to complete sufficient research and analysis of market area trends affecting rental and expense levels and relationships in an appraisal of income-producing commercial real estate in which an income approach was completed, or failure to include the result of such analysis in the appraisal report, the appraiser thus violates the SUPPLEMENTAL STANDARDS RULE.
- Using sales that are not arm's length in an appraisal for the purpose of determining market value is not acceptable appraisal practice when an adequate number of relevant arm's length sales are available for analysis. If market conditions result in the necessity to use sales that are not arm's length in an appraisal, the sale analysis must identify and apply appropriate adjustments to result in a value indication consistent with the terms and conditions of sale set forth in the market value definition applicable in the assignment.
- It is inappropriate to value a subdivision or tract development project by adding together the values for the individual units of finished production. It is misleading to report the sum of the values for individual units of production as the market value of the subdivision or tract development project.
- The use of non-market-based time constraints when analyzing a property produces a result that is not market value. When the purpose of an assignment includes client-specified marketing, sale, or acquisition conditions that are distinct from typical market conditions, it is misleading to label the result a market value opinion.
  - When the intended use of assignment results is for tract development project financing and a market value opinion is developed by use of a discounted cash flow analysis (DCF), the DCF analyses must include appropriate market-based deductions and discounts to reflect market value (present worth).
- 5206When the subject of the appraisal is a proposed project and an analysis method is a DCF, or5207other methods that involve discounting, the time frame over which discounting occurs must be5208consistent with the project's overall production and completed unit absorption period. The5209factors applied should be market-derived and must reflect the market's anticipated response to5210the difference between the date of value and receipt of the cash flows, project risk, and market5211trends, not only the time-value of money.
- 5213 An appraiser must take all reasonable steps to gather and verify relevant information 5214 concerning the subject properties' current market activity and marketing history. The time frames cited in Standards Rule 1-5(b) are minimums. If market activity concerning the subject 5215 property from prior periods is known and relevant, it should also be analyzed and addressed. 5216 The requirement is for an analysis of any sale that occurred in the minimum time frame, not 5217 5218 just the most recent sale. The summary of the sales' analyses reported in compliance with 5219 Standards Rule 2-2(a) or (b)(ix) must include data sufficient to identify each relevant prior sale 5220 of the subject, including (when available) sale date, amount, type and terms of financing if any, 5221 and the seller and buyer. If relevant and necessary to a proper understanding of the sale, the conditions of sale and the property condition at sale must also be reported. 5222

• Appraisal Review Issues	5223
	5224
An appraiser functioning as reviewer may state his or her own opinion of value as pa	ert of the 5225
appraisal review assignment results, but that opinion must be developed in compliance	with the 5226
requirements in STANDARD 1 applicable in the assignment that generated the wor	rk under 5227
review.	5228
	5229
An appraiser functioning as reviewer has the obligation to include information in the a	ppraisal 5230
review report as required in Standards Rule 3-2(a)–(f).	5231
